

Stock Module

Bruno Caetano Vidigal

Food and Agriculture Organization of the United Nations

Abstract

This vignette provides a detailed analysis of the stock module. In addition to analysing the delta stocks, this document has analysis about the **opening stocks** and **% of stocks** available. The group of commodities studied are **cereals**, **pulses** and **refined sugar**.

1. Descriptive Statistics

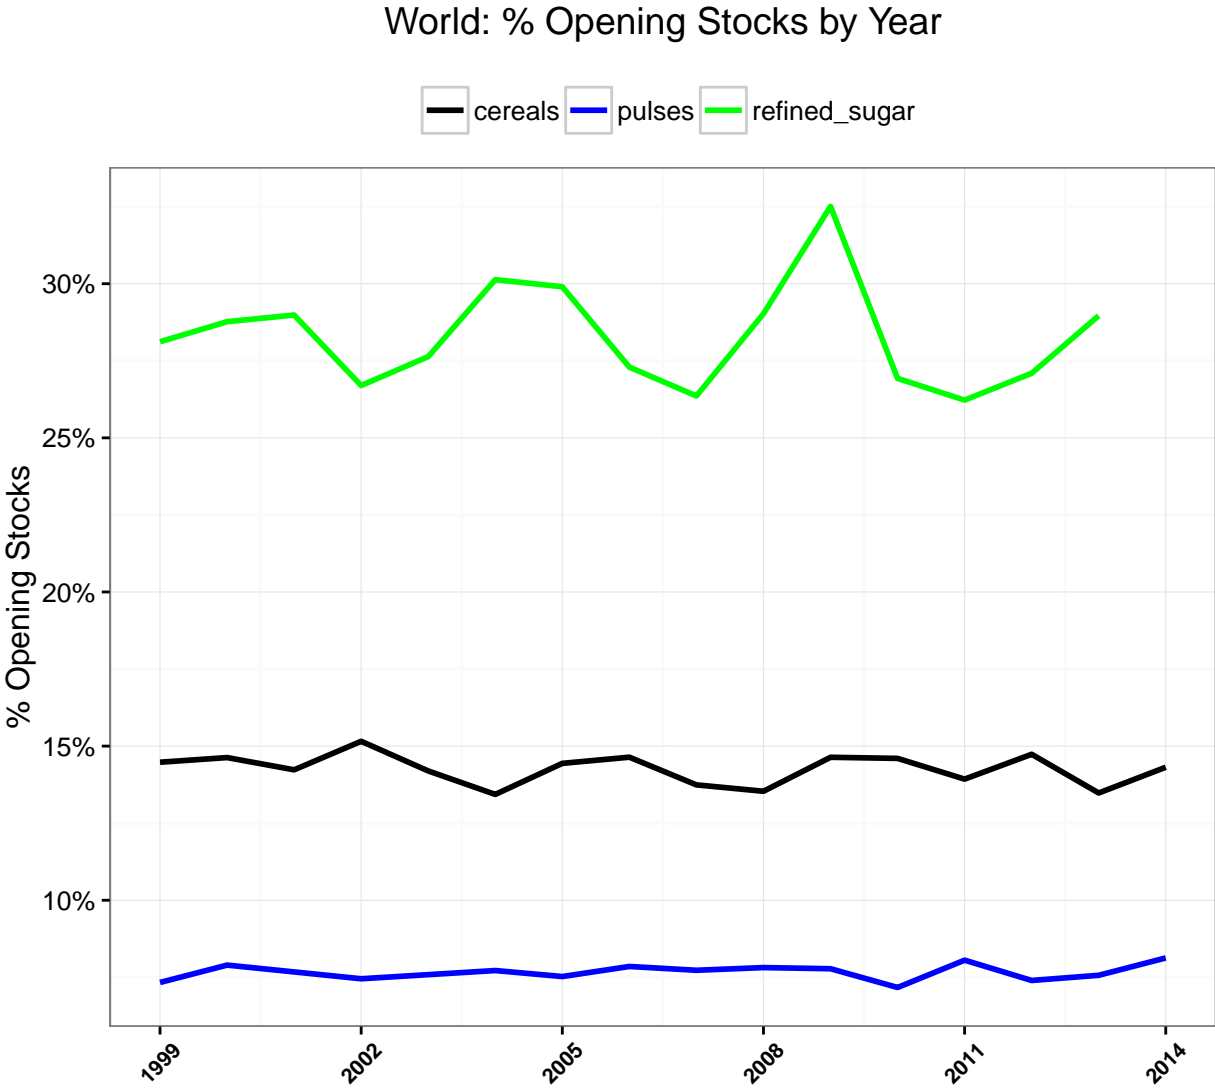

The methodology used to imputate the delta stock data was based on previous analyses done with **AMIS Data** and **F.O Lights Data**. Find below the basic description of the data.

Country	Commodity	Min Year	Max Year
183	27	1999	2014

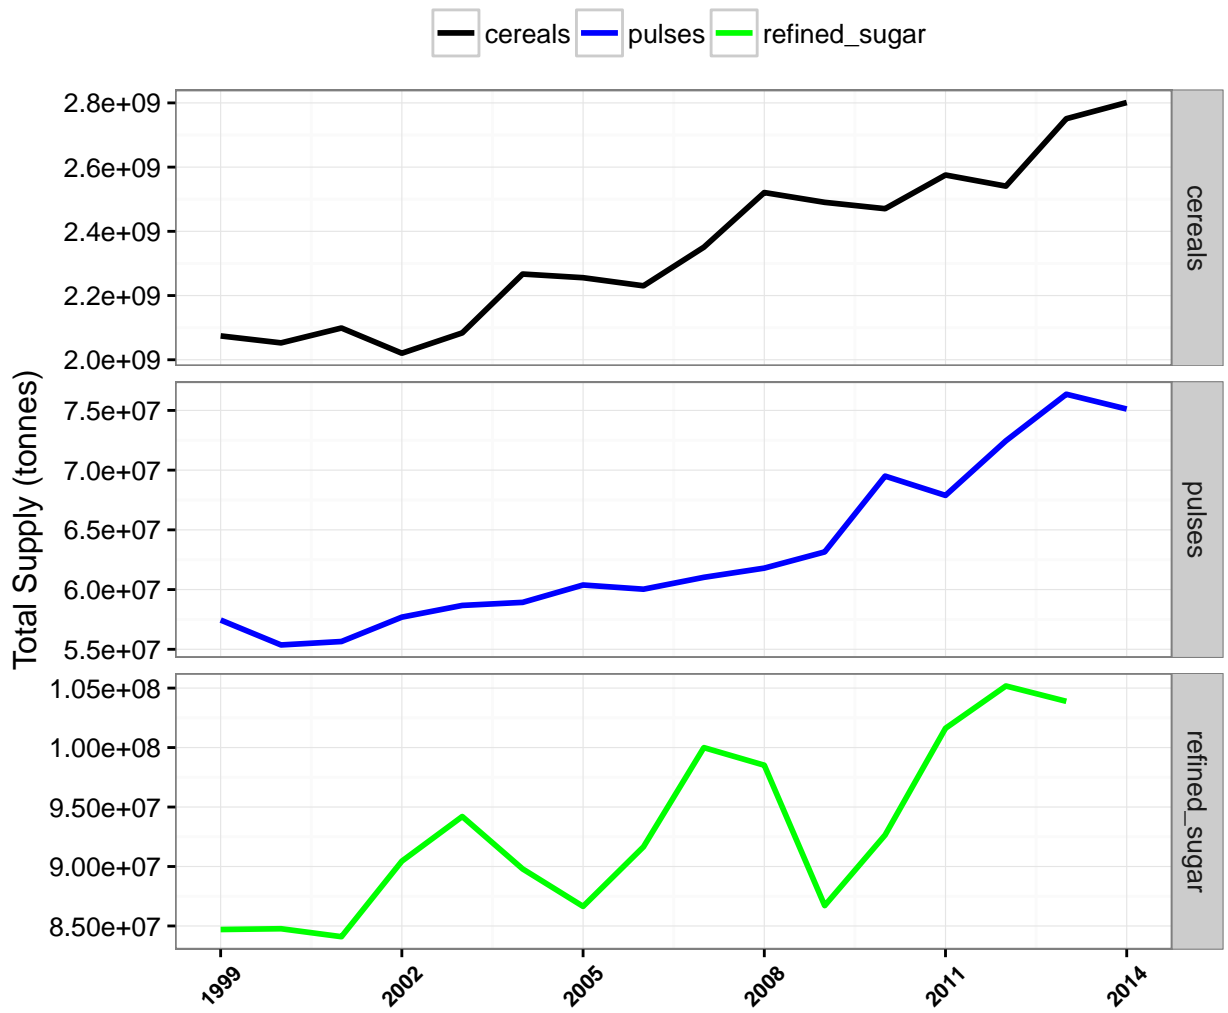

2. Data Visualization

There is no production for **refined sugar** in **2014**.
